

# TRINITY UNITED METHODIST CHURCH

WILMETTE, ILLINOIS

OPUS 2207 • 3 MANUALS, 63 RANKS

THE REUTER ORGAN COMPANY

*Trinity United Methodist Church is located in Wilmette, one of Chicago's gracious North Shore communities. As the church considered a program of building improvements in the late 1990's, a decision was made to retire their existing pipe organ, a much smaller instrument that had served the congregation for almost 70 years. After considering many potential companies, Reuter was selected to build the new instrument. This fully developed, three-manual organ features generous tonal resources with complete choruses on each division. Chamber openings were enlarged and twin facades were designed to enhance the church's Gothic Revival architecture. Project consultant was Scott R. Riedel and Associates, Ltd.*

## GREAT

16' Violone  
8' Principal  
8' Bourdon
